

Guess who'll pay for new energy taxes...

**Raising
taxes in a
recession
jeopardizes
jobs and
economic
recovery**

Congress will likely consider new taxes on America's oil and natural gas industry. These new energy taxes will produce wide-reaching effects, and ripple through our economy when America – and Americans – can least afford it.

These unprecedented taxes will serve to reduce investment in new energy supplies at a time when most Americans support developing our domestic oil and natural gas resources. That means less energy, thousands of American jobs being lost and further erosion of our energy security.

Our economy is in crisis, and we need to get the nation on the road to economic recovery. This is no time to burden Americans with new energy costs.

THE *people* OF AMERICA'S
OIL AND NATURAL GAS INDUSTRY
